Disclaimer

« Cryptocurrencies and more generally tokens are alternative high-risk investments and require deep knowledge and experience of FinTech & Blockchain matters. It is important that you read the Appendix entitled « list of risks ». This document is intended for information purposes only and to describe specific services. Past performances are not representative of current or future performances. Crypto Conseil Suisse SA does not guaranty any performance. Stop loss may not work and you may loose your initial investment even with a stop loss. This document is not an offer or recommendation to buy or sell any financial instruments, tokens, cryptocurrencies or any digital assets. Crypto Conseil Suisse SA is not regulated nor acting as financial intermediary. Crypto Conseil Suisse SA does not act as custodian and does not have or keep any private keys of third parties / clients' wallets. Crypto Conseil Suisse SA does not perform any pooling activities for clients. Crypto Conseil Suisse SA is not a trading or exchange facility and is not authorised for such activities. Crypto Conseil Suisse SA does not make any marketing for foreign (i.e. non-Swiss) (i) banks or custodian or entities performing custodian activities and/or (ii) securities firm (securities dealer). Crypto Conseil Suisse SA's activities are limited to blockchain advisory services (excluding any advisory in relation with financial instruments as such term is defined under the Financial Services Act), at the exclusion of any services or activities regulated under the Swiss Financial Law (including under the Swiss Anti-Money Laundering Act, the Financial Institutions Act and the Financial Services Act) ».

non-exhaustive list of risks

DLT, cryptocurrencies & DEFI are new and involves high risks in terms of fluctuation of portfolio and IT security.

Even though the purpose of the Trading Signal service is to provide trading signals to mitigate the risk of fluctuation, **the risks related to such transactions remain very high.**

The Trading Signal service refer to new technologies, including (without any limitation), internet, cryptographic systems such as smart contracts, blockchain, NFTs (at the exception of NFT qualifying as financial instruments or securities / *valeurs mobilières*), cryptocurrencies, decentralized or peer-to-peer networks and systems, but does not refer to any financial instruments as such terms is defined under the Financial Services Act or securities / *valeurs mobilières* as such term is defined in the Financial Market Infrastructure Act. The Clients acknowledges, understands and accepts that such technology has inherent risks associated with its use, and that Crypto Conseil Suisse SA (the “**Company**”) shall not liable or responsible for any resultant errors, failures, risks or vulnerabilities.

In particular, the Clients agrees to and accept that the Company is not liable or responsible for the occurrence of risks such as (without any limitation):

- Partial or total or loss of market value of your cryptocurrencies or other digital assets (such loss may happen even if the tokens are labelled “backed” and/or “stable”);
- Risk that a token or cryptocurrency or any digital asset be burned, becomes non-operational or be liquidated by a court or a financial market regulator or another entity;
- Risk that an exchange ceases to be operational or be liquidated;

non-exhaustive list of risks

Risk that an exchange is subject to an enforcement procedure or a litigation case leading to a suspension or termination of its activity, or even to liquidation and that the Client does not get back the tokens deposited on such exchange;

- Loss of cryptocurrencies or other digital assets due to the loss your private key(s), forgotten passwords or seed phrase, failure or loss of your Digital Wallet or purchase error. **The Company does not keep any copy of your private key, password or seed phrase and you are solely liable for such loss and any consequent loss in relation to your digital assets;**

- Loss of your cryptocurrencies or other digital assets as a result of faulty hardware or software, Internet connections and/or failures or malicious software, cyber-attacks and unauthorized third-party activities (including, but not limited to, the use of viruses, phishing, sybil attacks, mining attacks, 51% attacks, and brute forcing), unexpected surges in activity, or other operational or technical difficulties (including weaknesses in our own security) and malfunctions that may cause interruptions to or delays with our services. The Client acknowledges and agrees that the Company is not liable for any of the foregoing or any other attacks, or for any damage, losses or interruptions caused by any viruses that may affect your computer or other equipment, or your wallet. The Client further acknowledges and agrees that such attacks may impact your ability to access the Website, our services, your cryptocurrencies or other digital assets, your ability to transfer your cryptocurrencies or other digital assets;

- Loss of your cryptocurrencies or other digital assets due to malfunctions, errors, including programming errors, hacking and theft, or changes to the protocol rules of the concerned decentralized ledger which can adversely affect the smart contracts;

- Third-party unauthorized access to your information stored within the Digital Wallet holding your cryptocurrencies;

- Regulatory risks, including those relating to the tax treatment of cryptocurrencies or other digital assets, as well as the qualification or requalification any cryptocurrencies;

- Absence of ability to resell your cryptocurrencies or other digital assets on a secondary market;

- Cryptographic tokens such as NFT are a new and their legal qualification is not always clear, including from a Swiss regulatory perspective. Moreover, in addition to the risks abovementioned, there are other risks associated with your purchase, holding and use of the NFT, including those that the Company cannot anticipate.

- The Client is hereby informed and accepts that this list of risks is not exhaustive.
